

# HOW TO FIND AN OWL IN YOUR NEIGHBORHOOD

DATE:  
Thursday, April 25, 2019

TIME:  
6:30-7:30 p.m.

Do you ever see or hear an owl in your neighborhood and want to experience more of these beautiful birds? Award-winning naturalist Mark H.X. Glenshaw aka "The Owl Man" is here to help. Mark has studied Great Horned Owls in Forest Park since 2005. He gives dozens of lectures on the owls all over Missouri and Illinois and leads scores of owl prowls in Forest Park each year. In addition to this, he helps people all over the St. Louis metro area find owls in their neighborhoods whether in subdivisions, city neighborhoods, pocket parks or large public parks. Mark's talk will show which owls you are most likely to see or hear, where and how to look for them, what to listen for, and the importance of research and collaboration. He will show via photos and videos some of the behaviors he has been able to observe and document.
